

Dr. Alexandra Ginty, MD CCFP(EM) FCFP is a Regional Primary Care Lead CCO, family physician, and restorative tattooist at www.restoremeabc.com in Oakville, ON.

“Today I caught myself looking in the mirror. I was completely amazed at the transformation. My mastectomy has been an emotional journey. You took my breasts, a completely bare canvas and created a phenomenal work of art. People have said that you can’t put a price on a Picasso. However, the magnificent artistic areolas that you tattooed on my breast are beyond priceless to me. Of course, the best part of all is that I can take my original Dr. Alexandra Gintys with me everywhere!!” – Restorative tattoo patient.
